

## Why Offer an RV as Temporary Housing vs. a Hotel?

We're often a good fit for families who wish to remain on their property. Electing an RV for temporary housing makes it possible for families to stay in their communities and allows them access to many of the comforts of home through their property's amenities, such as, garages, fenced yards, and play structures.

Our condo-style RVs are available to come 100% apporportioned with pots, pans, sheets, and other necessary home items, or families in need can bring home items of their own that are still available.

## WHO IS RESTORING HOUSING?

Restoring Housing is a family-owned business that originated as an RV rental business for short term leisure rentals. After being contacted several times we learned there was a need for long-term temporary housing.

Restoring Housing was born to fill a need. When families are displaced from their homes by fire, flood, or natural disasters, we connect temporary housing providers with condominium-style RVs for displaced families in their time of need.
